

THE ENGINE SHED, WETHERBY - HOW TO GET THERE

From Leeds & Ring Road:

Head for Wetherby Road, using the Main A58 Wetherby Road (Out of Leeds past The Wellington Pub). Stay straight along this road for around 8 miles, at which point you will reach a large hotel (to your left) and a roundabout.

Turn left at the roundabout, heading into **Wetherby Town Centre**. *You will go over a river bridge and to a mini-roundabout, where you should follow the road straight ahead, for about a quarter of a mile.

You will shortly see an "Esso" service station on your right hand side - turn right, just before it, onto **York Road (B1224)**.

In less than a quarter of a mile, the Engine Shed will be on your left hand side, with a large car park in it's own grounds.

The whole journey should take around 20 minutes from Leeds.

From Garforth, The North, The South, All Motorways and the A1:

Head North on the A1, until you reach Wetherby. As you approach Wetherby, you will see the main turn-off for the Town Centre (A661). If you follow this turn-off, you will go straight ahead at the roundabout and follow from the * symbol, as above.

I would recommend staying on the A1 for one more junction, less than another quarter of a mile, to exit at the turn-off for **Wetherby Racecourse and York (B1224)**.

Keep left as you exit the slip road from the A1, and turn left at the T-Junction.

Almost as soon as you turn left from the end of the slip-road, the Engine Shed and it's large car park will be on your right hand side.

...See you there, from Tuesday 25th September!
